

The Future

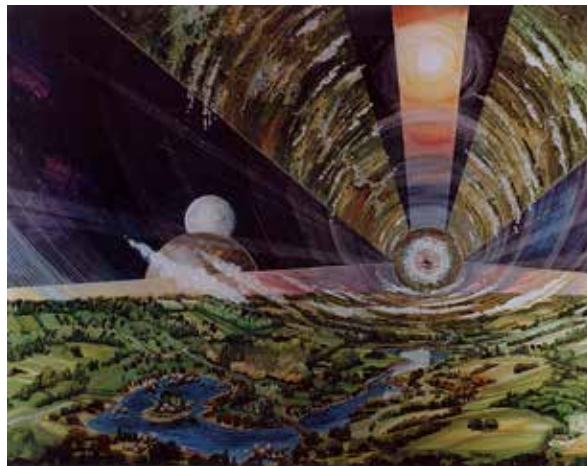

Let's get into a time machine and travel to the year 2112 –
one hundred years from now!

Write about what things are like in the year 2112.

What is the same? What is different?

What do you like about 2112? What don't you like?

Here are some things you can write about:

- What does the place where you live look like in 2112?
- How do people live? What do houses look like?
- What kind of food do people eat?
- What is school like?
- What do children do in their free time?
- Are there still cars, bikes, buses, trains or other ways to travel?
- Do people still watch TV and go to the cinema?
- How do they communicate with each other? Do they still use phones and computers?

Write as much as you can! Use English all the time!
